

The starting

# 5 Blocks

My guess is that there will be four ways because the examples above show that there is one solution less than the number of cubes.

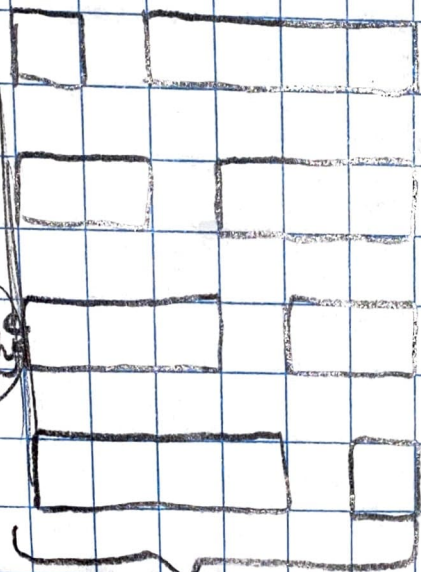

I checked my answer and I was right. there are 4 ways.

Answer:

cubes

Always be  
solution will  
less unless  
be number  
dit it in 2.  
u don't change  
ion will always  
s.

noticing!

4 sticks of  
5 cubes

I was right!  
yay!

You could try all the  
solutions in the world  
and it'll still work.
