

WALKING THE DOG : BY ONG CI HUI MINH NGOC
(SINGAPORE, PRIMARY3 KONG HWA SCHOOL)
GRAPH1 : PAT IS WALKING HER DOG.

Once they reach the distance shown on the graph, they stood there without moving.

Graph2 :Pat walking with her dog

Pat and her dog walk away from the gate to the distance as peak shown and headed back immediately.

Anyone can guess how I have created this graph? It has 3 different sections.
