

I just added the bottom row to the last answer

Items like pink by is self and they are called Scissors

If prediction The 100th

Paton will be

10000

Prediction

The next Number of sticks will be 109

The next Number of triangles will be 64

$$12 \times 12 = 144$$

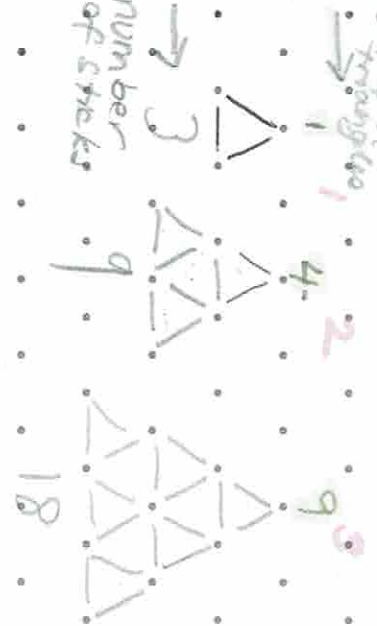

The 12th

Paton will be

144 triangles

number of triangles

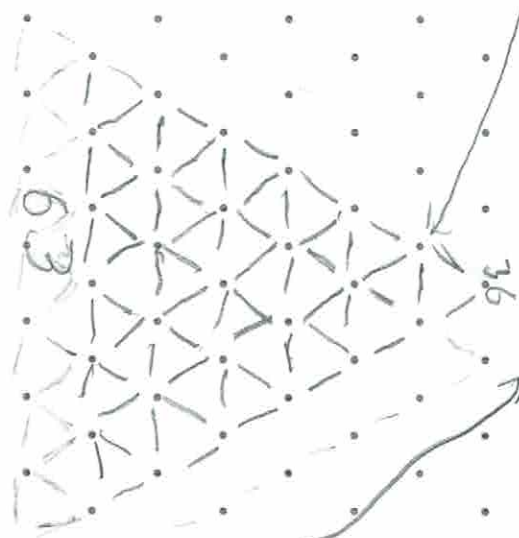

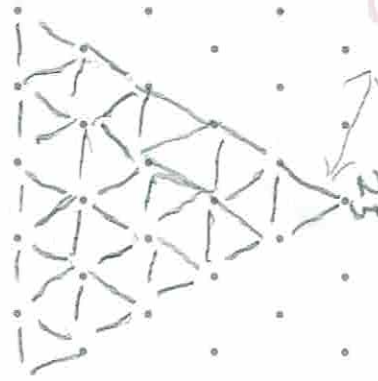

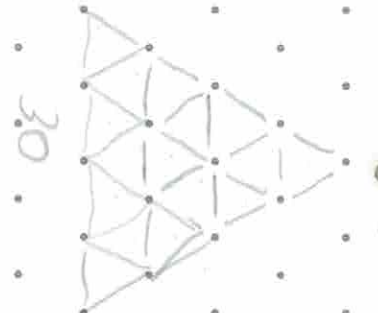

→ 3
number of sticks

They are all in the 3 times table

Why? because triangles have 3 sides

what type of numbers are these?

The yellow is how many? the pink is the has the same
